

TASHIKA

Non contact IR Pyrometer

TB-1300

FEATURES

- ① Low cost
- ② Light weight
- ③ Built-in laser pointer
- ④ °C/°F switchable display
- ⑤ Target to distance ratio of 1:50
- ⑥ MAX, MIN temperature displays
- ⑦ Auto 0.1 °C/1°C resolution switching
- ⑧ Automatic Data Hold & Auto power off

DESCRIPTION

TB-1300 is a low cost infrared thermometer for non-contact temperature measurement of an object. Just by pointing the thermometer on to the object and pressing a trigger, surface temperature of the object is instantly displayed on the LCD Panel. TB-1300 can also compute max & min temperature reading of the surface. Built-in laser pointer helps to aim the target object.

TASHIKA – JAPAN

APPLICATIONS

Temperature measurement during food preparation, Safety and over heat inspection for maintenance of observation during production process such as plastic molding, asphalt or rubber production, screen print in general purpose applications in various industries.

TECHNICAL SPECIFICATIONS

Temperature Range	-50°C ~1300°C
Accuracy	±2% or 2°C
Distance Spot Ratio	50:1
Emissivity	0.1-1.0
Response Time Wavelength	500ms(8-14)um
Repeatability	±1% or±1°C
Resolution	0.1°C or 0.1°F
High/Low Temp. Alarm Setup	√
Max/Min/Avg/Dif Temp. Measurement	√
Dual Laser	√
Data Records	9 sets
°C/°F Selection	√
Laser Target Selection	√
Auto Power Shut Off	√
Low Battery Indication	√
Power	DC 9V
